## Stained Glass Project

Jean Watson, in consultation with other artists in residence at St. Stephen's, has designed a stained glass assembly that will flow across the nave windows in the main church. The creation of these windows is about to get under way (glass has been purchased but the cutting and soldering has yet to be done). However, before Jean begins, we wanted to invite feedback from the congregation.

An artist's rendering of the design has been hung up in the library. Please feel free to leave comments at that location (an envelope has been provided for this purpose). As you will see in the design, once completed, the panels will hang in the center panel of each window on both sides of the church (mirroring one another).

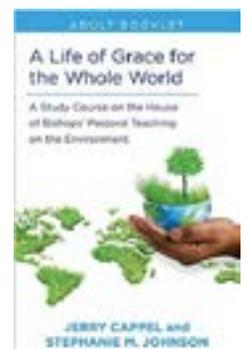

If you have any further questions please contact Fr. Nic

## Sunday Forum: Environmental Conversation

Beginning January 27th, the 9:00 Sunday Forum will be a study course on the House of Bishop's Pastoral Teaching on the Environment. There will be 5 one hour + sessions using a course titled "A Life of Grace for the Whole World."

This will be an opportunity to re-focus on our GreenFaith commitments and learn how Christianity intersects with the present environmental crisis. Books for the course will be available for a small fee. Contact Margaret ([mlapic@cascadenetworks.net](mailto:mlapic@cascadenetworks.net)) if you plan to participate so that we can make sure there are enough course books available.
