A Life of Grace for the Whole World

January 27 – March 3

Many people are interested in exploring the connection between environmental issues and basic tenets of Christian faith and spirituality. Others remain convinced that this topic is largely political and has no place in church life. It is complicated!! However, the world needs the church to respond in ways that show our commitment to love God and neighbor and how that relates to the love of God for all creation.

Wherever you are - skeptic, newly interested, or member of the environmental choir - the class that begins at 9:00 on January 27th, will be of interest to you. We will meet in the library. The booklets for the 6 week study course are \$9.

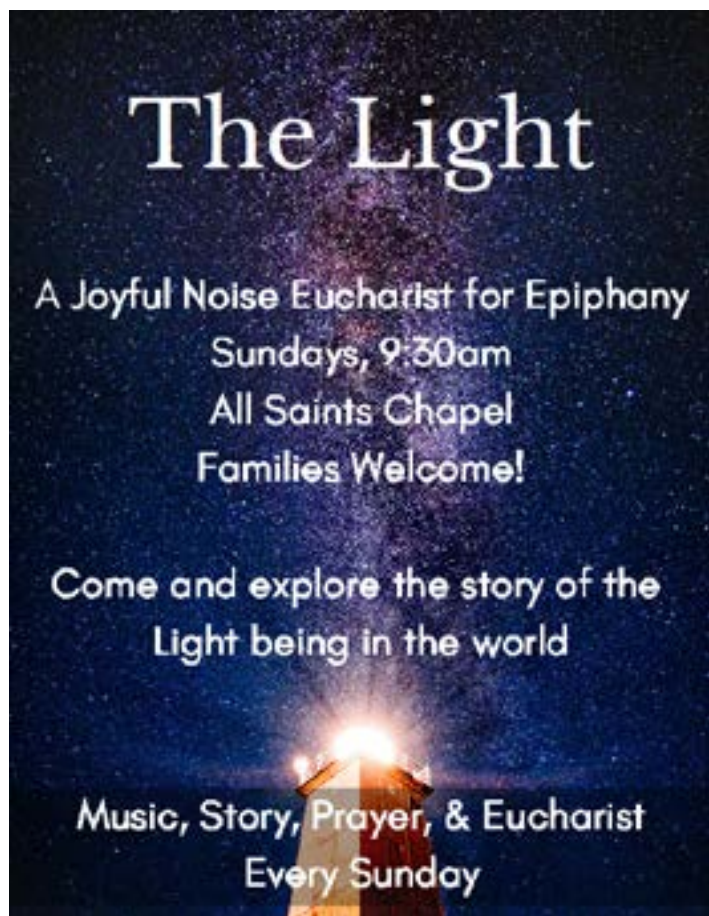

(It would be helpful if you let me know in advance that you will need a study booklet.) I invite you to join the conversation, beginning with the House of Bishops' Pastoral Teaching on the Environment.

St Stephen's mission is to:

- Courageously serve the diverse world, to care for one another, our community and the earth in Christ's name.
- We ground this service in joyful and thoughtful worship, drawn from past and present, trusting in the Holy Spirit to refresh and guide us.
- We are committed to grow together, to find our being in God, and to welcome all on their faith journey.
